4. New rates and bandwidths for NI, PAYE and statutory payments

Tip: For full details of the tax and tax credit rates and thresholds for 2016-17, visit the GOV.UK website at www.gov.uk/government/publications/tax-and-tax-credit-rates-and-thresholds-for-2016-17/tax-and-tax-credit-rates-and-thresholds-for-2016-17.

These are the new rates and bandwidths for the 2016-17 tax year.

4.1 Employment allowance

From 6 April 2016, the employment allowance per year, per employer increases from £2,000 to £3,000.

Note: Companies where the director is the sole employee will no longer be able to claim the employment allowance.

4.2 NICs bandwidths

	Weekly	2 Weekly	4 Weekly	Monthly	Yearly
UEL	£827	£1,654	£3,308	£3,583	£43,000

Up to LEL	£5,824	0%	0%	0%	0%

Notes: Contracted out NI category letters D, E, I, K and L are not used in the 2016-17 tax year.
The UAP threshold has been removed in the 2016-17 tax year.
The UEL, UST and AUST are at the same level in the 2016-17 tax year.
NI category letter H is a new code for apprentices under 25.

4.5 Income tax rates & bandwidths

		2015-16	2016-17
Basic rate	20%	£0 - 31,785	£0 - 32,000
Higher rate	40%	£31,786 - 150,000	£32,001 - 150,000
Additional rate	45%	£150,001 +	£150,001 +

4.6 Scottish Rate of Income Tax

From 6 April 2016, the Scottish Rate of Income Tax (SRIT) applies for people whose main place of residence is in Scotland. Rest of the UK (rUK) income tax rates will be reduced in Scotland by 10p and then increased by the SRIT rate. The SRIT rate is set by the Scottish Parliament.

The SRIT rate for the 2016-17 tax year is 10% so in effect the rates will be the same as the rUK rates:

- The Scottish basic rate will be $(20\% - 10\% + 10\%) = 20\%$
- The Scottish higher rate will be $(40\% - 10\% + 10\%) = 40\%$
- The Scottish additional rate will be $(45\% - 10\% + 10\%) = 45\%$.

(With an rUK basic rate of 20%, higher rate of 40% and additional rate of 45%).

SRIT tax payers will use a tax code with an 'S' prefix, for example 'S1100L'.

4.7 Tax allowance

	2015-16	2016-17
Personal Allowance	£10,600	£11,000
Marriage Allowance (transferrable for married couples and civil partners)	£1,060	£1,100

Tax code suffixes P or Y are no longer valid. These suffixes were used for people who qualified for age related increased personal allowances.

- P was used for people born between 6 April 1938 and 5 April 1948.
- Y was used for people born before 6 April 1938.

HMRC will not reject submissions that include these codes. HMRC will issue new codes if they are used.

4.8 Changes in tax codes

The emergency tax code will be 1100L.

The transferrable amount is 10% of the personal allowance:

- the transferor's allowance is the uplift less 10%.
- the transferee's allowance is the normal uplift plus 10%.

Suffix code	Change	To
L (basic personal allowance)	+ 40	1100
M (transferee's allowance)	+ 44	1210
N (transferor's allowance)	+ 36	990

4.9 Statutory payments rates

SSP

From 6 April 2016, the standard weekly rate for days of absence due to sickness remains at £88.45 for employees with average weekly earnings of £112 or more.

SMP, SAP & ShPP

For payment weeks starting on or after Sunday 3 April 2016, the standard rate remains at £139.58. For the first six weeks of payment, the amount paid to an employee is 90% of the employee's average weekly earnings (the earnings-related rate). For the remaining weeks, it will be the lesser of the standard rate of £139.58, or the earnings-related rate (90% of the employee's average weekly earnings).

SPP

For payment weeks starting on or after Sunday 3 April 2016, the standard rate remains at £139.58. The weekly rate paid to an employee will be the lesser of the standard rate of £139.58 or the earnings-related rate (90% of the employee's average weekly earnings).

Small Employers Relief

The recovery and compensation rates for Small Employers Relief (SER) and the classification of a small business have not changed.

- Employers who qualify for SER are those with a total annual Class 1 NICs including primary (employee) and secondary (employer) liability of £45,000 or less.
- Employers who qualify for SER are allowed to recover 100% of statutory payments (SMP, SPP, ShPP and SAP) paid to their employees plus 3% compensation.
- Employers who do not qualify for SER can recover 92% of the statutory payments paid to their employees.

Student loan threshold

From 6 April 2016, the annual student loan thresholds are:

- Plan 1: £17,495
- Plan 2: £21,000.

New thresholds for auto enrolment

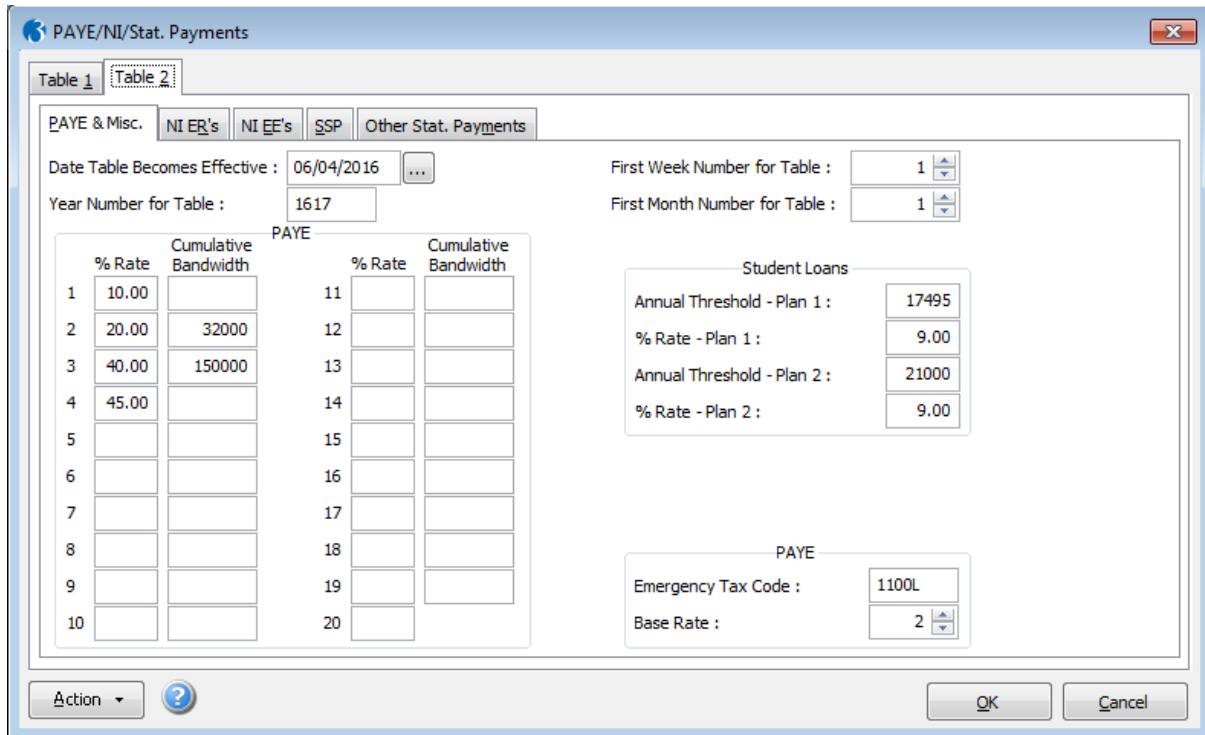

The Department for Work & Pensions (DWP) has announced the proposed annual thresholds for the 2016-17 tax year (subject to the parliamentary process so may change).

Pay reference period	Weekly	2 Weekly	4 Weekly	Monthly	Yearly
Lower level of qualifying earnings	£112	£224	£448	£486	£5,824
Earnings trigger for automatic enrolment	£192	£384	£768	£833	£10,000
Upper level of qualifying earnings	£827	£1,654	£3,308	£3,583	£43,000

5. Scottish Rate of Income Tax

From 6 April 2016, the Scottish Rate of Income Tax (SRIT) applies for people whose main place of residence is in Scotland. Rest of the UK (rUK) income tax rates will be reduced in Scotland by 10p and then increased by the SRIT rate. The SRIT rate is set by the Scottish Parliament.

The SRIT rate for the 2016-17 tax year is 10% so in effect the rates will be the same as the rUK rates:

- The Scottish basic rate will be $(20\% - 10\% + 10\%) = 20\%$
- The Scottish higher rate will be $(40\% - 10\% + 10\%) = 40\%$
- The Scottish additional rate will be $(45\% - 10\% + 10\%) = 45\%$.

(With an rUK basic rate of 20%, higher rate of 40% and additional rate of 45%).

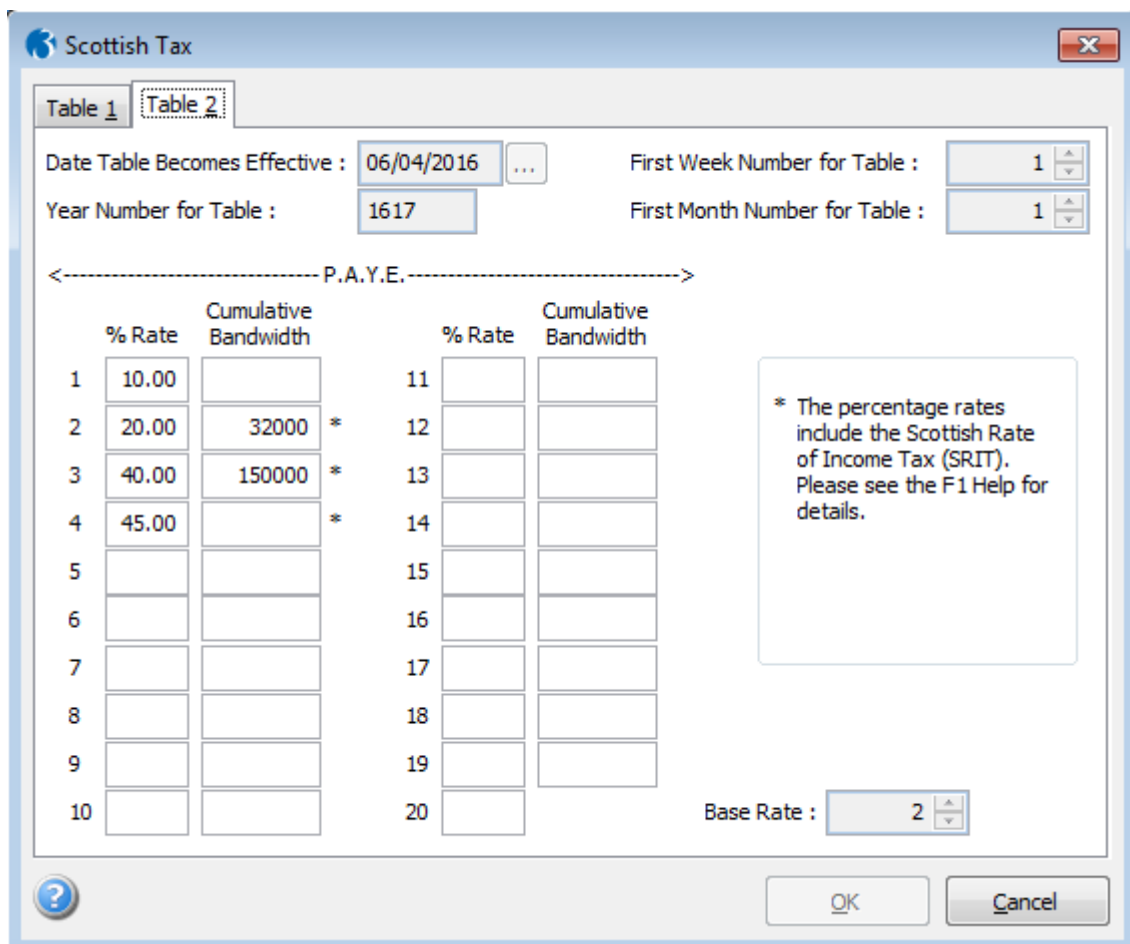

SRIT tax payers will use a tax code with an 'S' prefix, for example 'S1100L'.

Tip: For full details of the Scottish rate of Income Tax, visit www.gov.uk/government/news/the-scottish-rate-of-income-tax.

5.1 Software changes

Scottish tax rates

Income tax rates for employees who are subject to the Scottish Rate of Income Tax (SRIT) are maintained on the Payroll - Utilities - Scottish Tax form. The bandwidths for SRIT are the same as the rest of the UK.

The screenshot shows a software window titled "Scottish Tax" with a "Table 1" and "Table 2" tab. The "Date Table Becomes Effective" is set to "06/04/2016" and the "Year Number for Table" is "1617". The "First Week Number for Table" and "First Month Number for Table" are both set to "1".

Below the configuration fields is a table for "P.A.Y.E." with columns for "% Rate" and "Cumulative Bandwidth". The table has 20 rows. The first four rows are pre-filled with the following values:

	% Rate	Cumulative Bandwidth		% Rate	Cumulative Bandwidth
1	10.00		11		
2	20.00	32000 *	12		
3	40.00	150000 *	13		
4	45.00	*	14		
5			15		
6			16		
7			17		
8			18		
9			19		
10			20		

A note on the right side of the window states: "* The percentage rates include the Scottish Rate of Income Tax (SRIT). Please see the F1 Help for details." At the bottom right, the "Base Rate" is set to "2".

'Scottish Taxpayer' employee option

An option (relevant from the 2016-17 tax year) that indicates that the employee is subject to the Scottish Rate of Income Tax (SRIT). The tax regime is included in the Full Payment Submission (FPS) for each pay period. Scottish tax codes are prefixed with 'S' in the FPS and on printed documents (P45, P60 and so on).

In Opera you don't enter the 'S' in the **Tax Code** box - that is added 'in the background' when the **Scottish Taxpayer** option is selected.

A message is displayed when the option is selected to warn that the SRIT rate will apply for the employee.

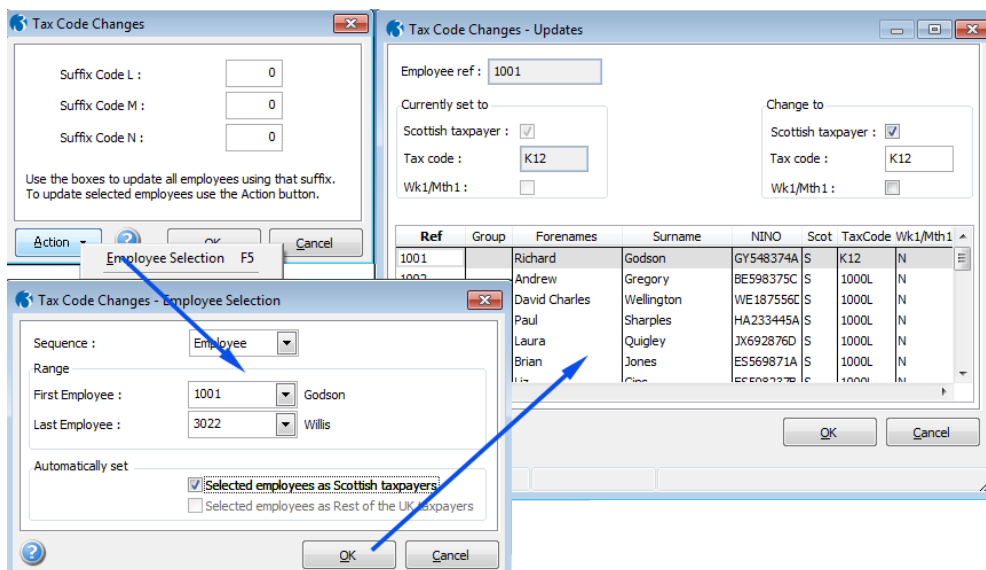

Global update of the 'Scottish Taxpayer' option using the Tax Code Changes form

To make it easier to change the Scottish Taxpayer setting specifically and tax codes in general, a facility has been added to the **Tax Code Changes** form to globally update the following:

- The 'Scottish Taxpayer' or 'Rest of the UK' options
- Tax code
- The Week1/Month1 option.

You can select employees to update using either the employee reference or department. You can view a report before the employee's details are changed.

6. Abolition of employer's NI for apprentices under 25

If you employ an apprentice who is under 25, from 6 April 2016 you don't have to pay employer Class 1 NICs on their earnings up to the new Apprentice Upper Secondary Threshold (aligned with the Upper Secondary Threshold for the tax year beginning 6 April 2016).

This has been introduced to encourage apprenticeships for people under 25. These employees will be on NI category letter H.

Category	Apprentice category (under 25)	Equivalent category (under 21)	Existing category (25 +, or 21 + if not an apprentice)
Standard	H	M	A

Notes:

1. Employer NI is paid at the standard rate when the employee turns 25.
2. Employee NI is paid at the standard rate, regardless of their age.
3. Any apprentices under 21 with a NI category letter M must be changed to letter H.

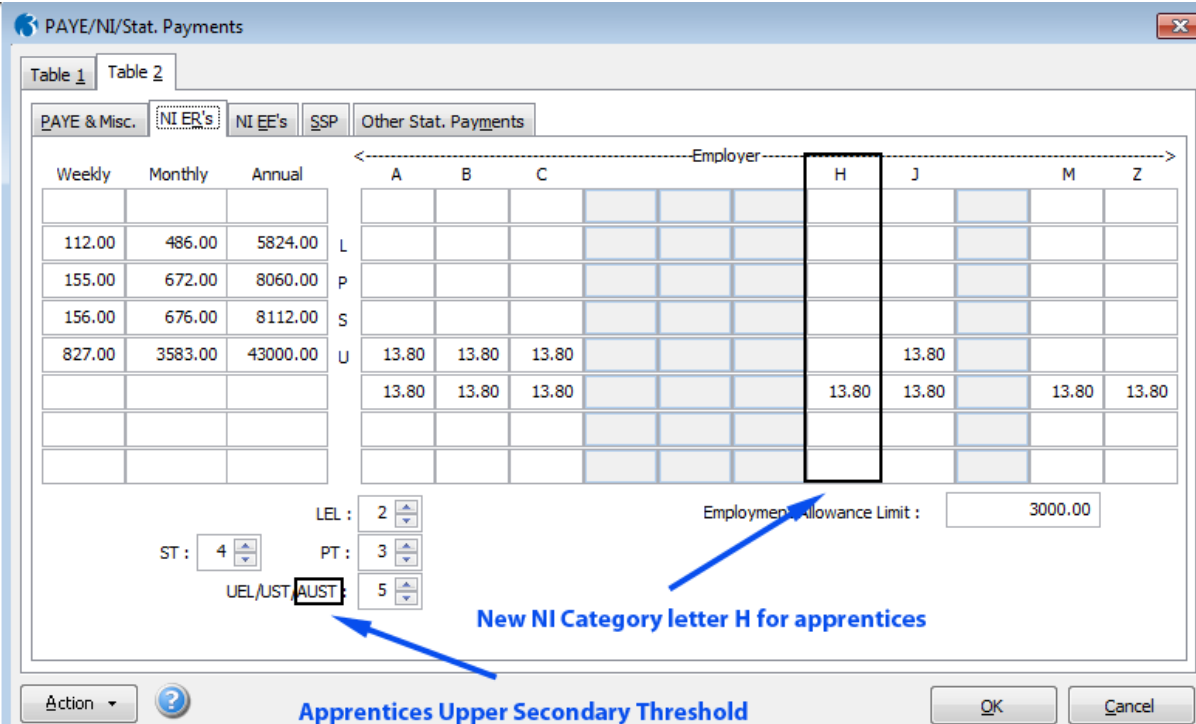

Tip: For full details of the abolition of employer NICs for apprentices under 25, visit www.gov.uk/government/publications/national-insurance-contributions-abolition-of-employer-contributions-for-apprentices-under-25.

6.1 Software changes

Payroll - Utilities - PAYE/NI/Stat. Payments

The **NI ER's** tab - which displays the employer's NI rates and thresholds - includes a column for NI category letter H in the 2016-17 tax year. The new Apprentices Upper Secondary Threshold is the same level as the Upper Earnings Limit and Upper Secondary Threshold.

The payroll calculation automatically calculates the reduced employer's NI for the relevant employees.

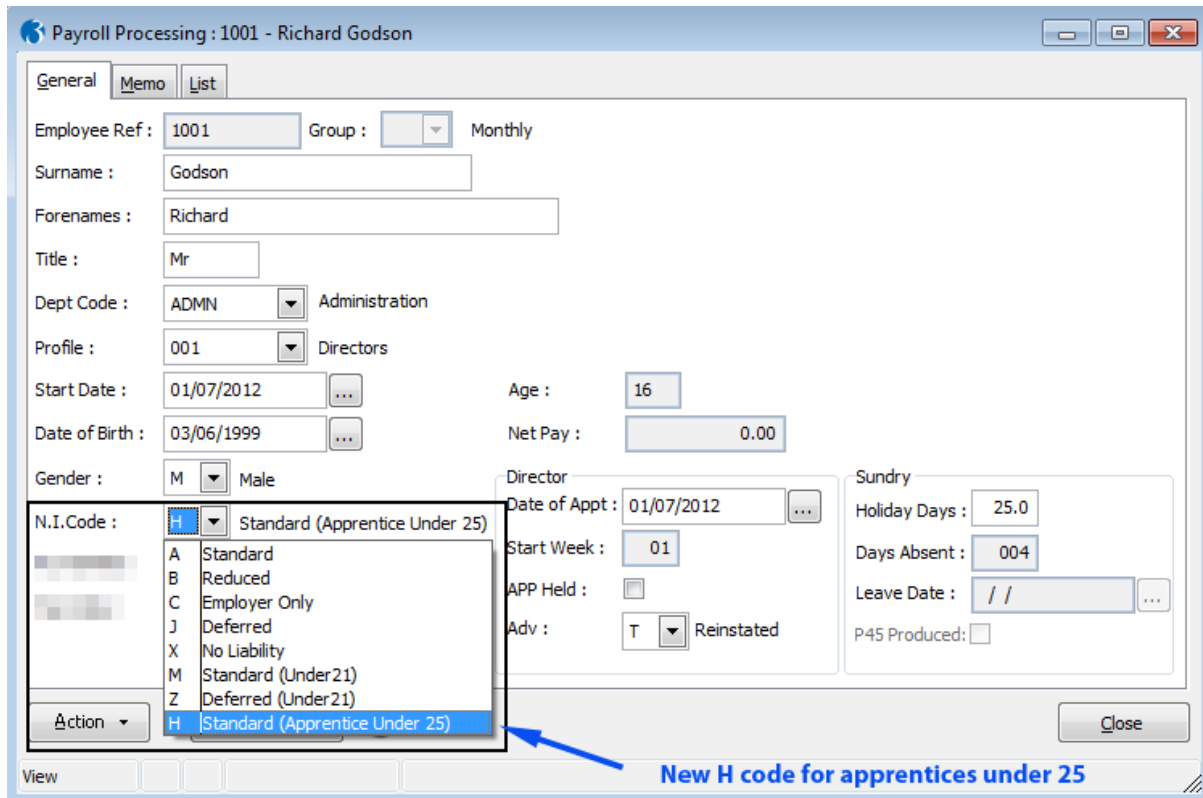

The screenshot shows the 'PAYE/NI/Stat. Payments' window with the 'NI ER's' tab selected. The interface includes a table for 'Employer' NI rates and thresholds across categories A, B, C, H, J, M, and Z. The 'H' column is highlighted with a blue box and an arrow pointing to it from the text 'New NI Category letter H for apprentices'. Below the table, there are input fields for 'ST' (set to 4), 'PT' (set to 3), 'UEL/UST/AUST' (set to 5), and 'Employment Allowance Limit' (set to 3000.00). At the bottom, there is a blue banner that reads 'Apprentices Upper Secondary Threshold'.

New NI Category Letter H

The NI category letter H is displayed in the 2016-17 tax year.

This affects:

- Payroll - Processing (NI Code list)
- Payroll - Processing - To-Date
- Payroll - Utilities - Adjust NI.

The screenshot shows the 'Payroll Processing : 1001 - Richard Godson' window. The 'N.I.Code' dropdown menu is open, displaying the following options:

- A Standard
- B Reduced
- C Employer Only
- J Deferred
- X No Liability
- M Standard (Under21)
- Z Deferred (Under21)
- H Standard (Apprentice Under 25)

The 'H Standard (Apprentice Under 25)' option is highlighted in blue. A blue arrow points to this option. Below the dropdown menu, the text 'New H code for apprentices under 25' is displayed in blue.

Other visible fields in the form include:

- Employee Ref : 1001

7. Full Payment Submission

For the Full Payment Submission (FPS) in the 2016-17 tax year:

- Now includes:
 - The new NI category letter H - for apprentices under the age of 25.
 - Individuals receiving a pension death benefit or a flexible drawdown pension payment.
 - The tax regime (Scottish Rate of Income Tax or rest of the UK).
- No longer includes:
 - NI category letters - D, E, I, K and L, Scheme Contracted Out Numbers (SCON), and the Employer's Contracting Out Number (ECON) - used for COSR pension schemes.
 - The late PAYE Reporting Reason of 'E' - previously used by micro employers.

7.1 Software changes

NI Category letter H

The new NI Category letter H - for apprentices under 25 - is accepted in the FPS in the 2016-17 tax year.

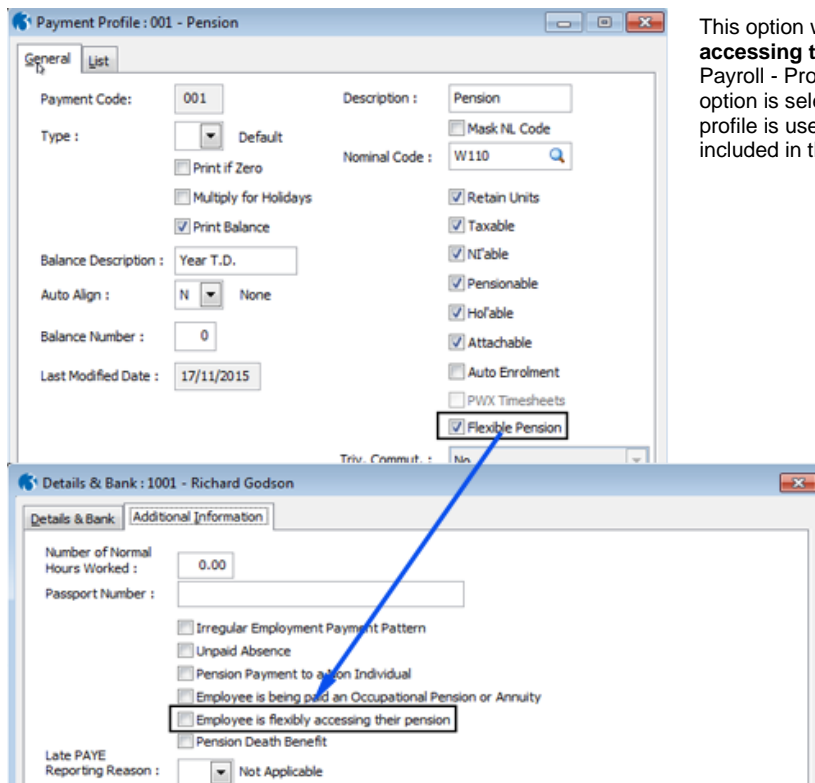

Pension death benefits or flexible drawdown pension payments

In the 2016-17 tax year, the FPS must identify individuals receiving either a pension death benefit or a flexible drawdown pension payment. These are controlled by options on both the payment profile and on the employee record.

For detailed information about pension death benefit, visit www.gov.uk/tax-on-pension-death-benefits.

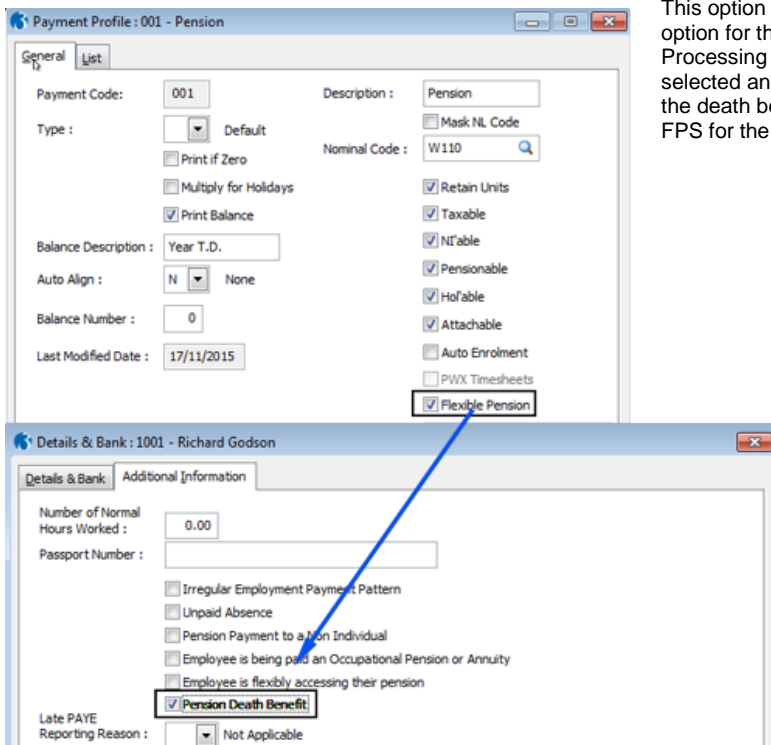

Payment Profile option - 'Flexible Pension'

An option that controls whether the payment profile is used for drawing pensions flexibly, or whether the payment profile is used for pension death benefit.

The image shows two overlapping software windows. The top window is titled 'Payment Profile: 001 - Pension' and has a 'General' tab selected. It contains various fields and checkboxes. The 'Flexible Pension' checkbox is checked and highlighted with a black box. The bottom window is titled 'Details & Bank: 1001 - Richard Godson' and has an 'Additional Information' tab selected. It contains several checkboxes, with 'Employee is flexibly accessing their pension' checked and highlighted with a black box. A blue arrow points from the 'Flexible Pension' checkbox in the top window to the 'Employee is flexibly accessing their pension' checkbox in the bottom window.

This option works with the **Employee is flexibly accessing their pension** employee option on the Payroll - Processing - Details & Bank form. If that option is selected and a flexible pensions payment profile is used, the pension payment details will be included in the FPS for each pay period.

If that option is selected and a flexible pensions payment profile is used, the death benefit payment details will be included in the FPS for the pay period.

Scottish Rate of Income Tax

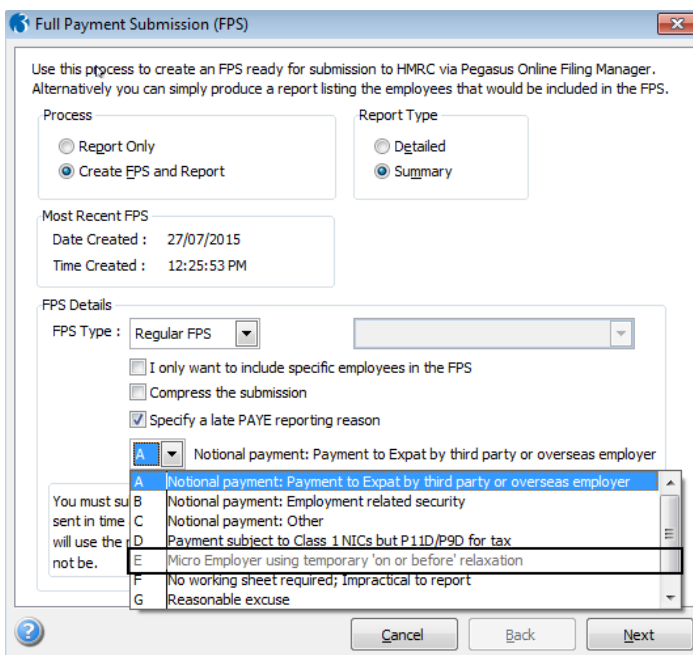

The tax regime is included in the FPS in the 2016-17 tax year.

This is either:

- Scottish Rate of Income Tax or,
- Rest of the UK.

NI category letters - D, E, I, K and L

NI Category letters D, E, I, K and L, Scheme Contracted Out Numbers (SCON) and the Employer's Contracting Out Number (ECON) - used for COSR pension schemes - are not used in the 2016-17 tax year.

Late PAYE reporting reason E

The late PAYE reporting reason E for 'Micro Employers using temporary on or before relaxation' no longer applies after the 2015-16 tax year, so that option is disabled.

This affects both the Payroll - RTI Submissions - Full Payment Submission form and the Payroll - Processing - Details & Bank form.

Important: You must submit your FPS on or before each pay day. If it is not sent in time a late PAYE reporting reason must be included in the FPS when it is sent. HMRC will use the reason to prevent penalties being issued when they should not be.

8. Employer Payment Summary

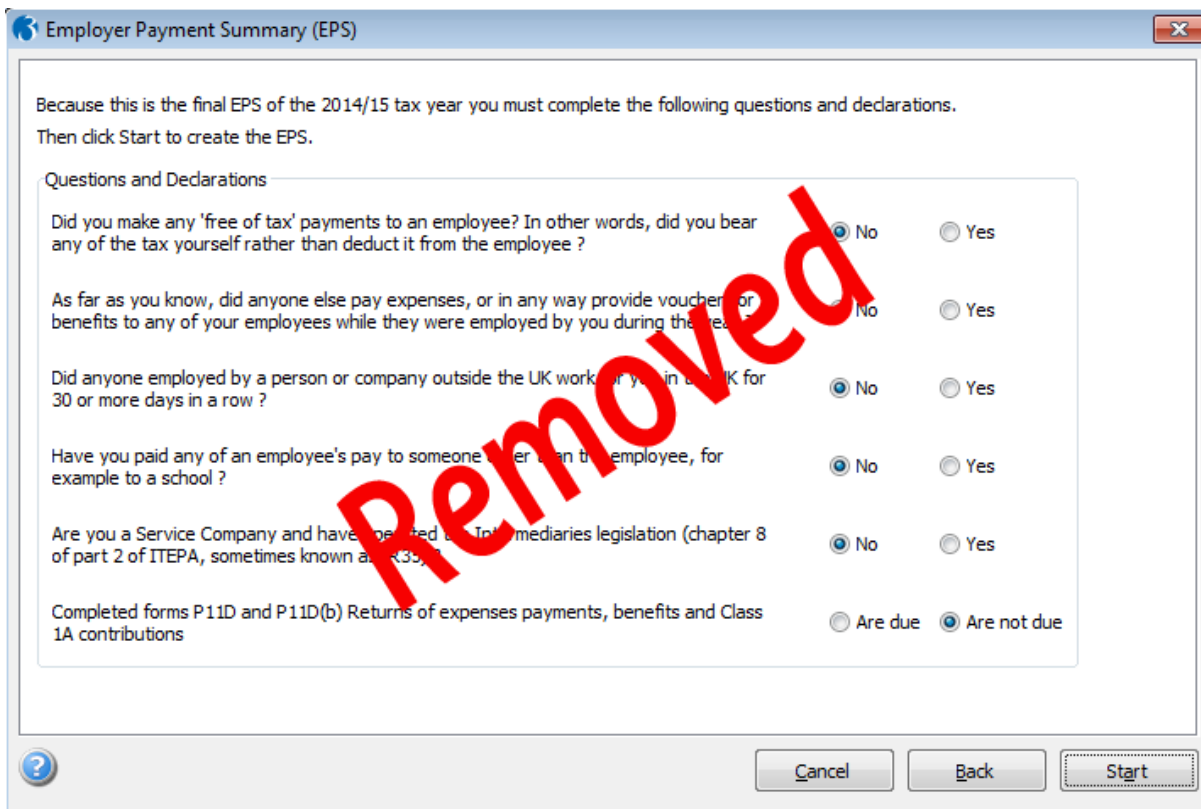

For the Employer Payment Summary (EPS) from the 2015-16 tax year:

- The Questions and Declarations section has been removed for the final EPS for the year, and for schemes that have ceased.

8.1 Software changes

Important: Even though the Questions and Declarations are no longer needed by HMRC, you must still submit a final EPS for this tax year.

The Questions and Declarations page is no longer displayed for the final EPS of the year.

Employer Payment Summary (EPS)

Because this is the final EPS of the 2014/15 tax year you must complete the following questions and declarations.
Then click Start to create the EPS.

Questions and Declarations

Did you make any 'free of tax' payments to an employee? In other words, did you bear any of the tax yourself rather than deduct it from the employee? No Yes

As far as you know, did anyone else pay expenses, or in any way provide vouchers or benefits to any of your employees while they were employed by you during the year? No Yes

Did anyone employed by a person or company outside the UK work for you in the UK for 30 or more days in a row? No Yes

Have you paid any of an employee's pay to someone other than the employee, for example to a school? No Yes

Are you a Service Company and have operated under the Intermediaries legislation (chapter 8 of part 2 of ITEPA, sometimes known as IR35)? No Yes

9. Student Loans - plans 1 and 2

From 6 April 2016, two student loan plans apply with different earnings level thresholds.

- Plan 1 - with a threshold of £17,495
- Plan 2 - with a threshold of £21,000.

Student loan repayments must be deducted when an employee's earnings reaches the relevant student loan threshold. If a new employee is repaying a student loan you will need to ask which plan type the employee is repaying under. From 6 April you must ask new employees about their student loan plan type when they complete their starter declaration.

The relevant plan for each employee will be included on the Student Loan Start Notice (SL1). Form P45 will only indicate whether a new employee is already repaying a student loan. It will not indicate a plan type.

Note: It is possible for employees to have both types of loan, but you will only be asked to make deductions for an employee under one plan at a time - either plan 1 or plan 2.

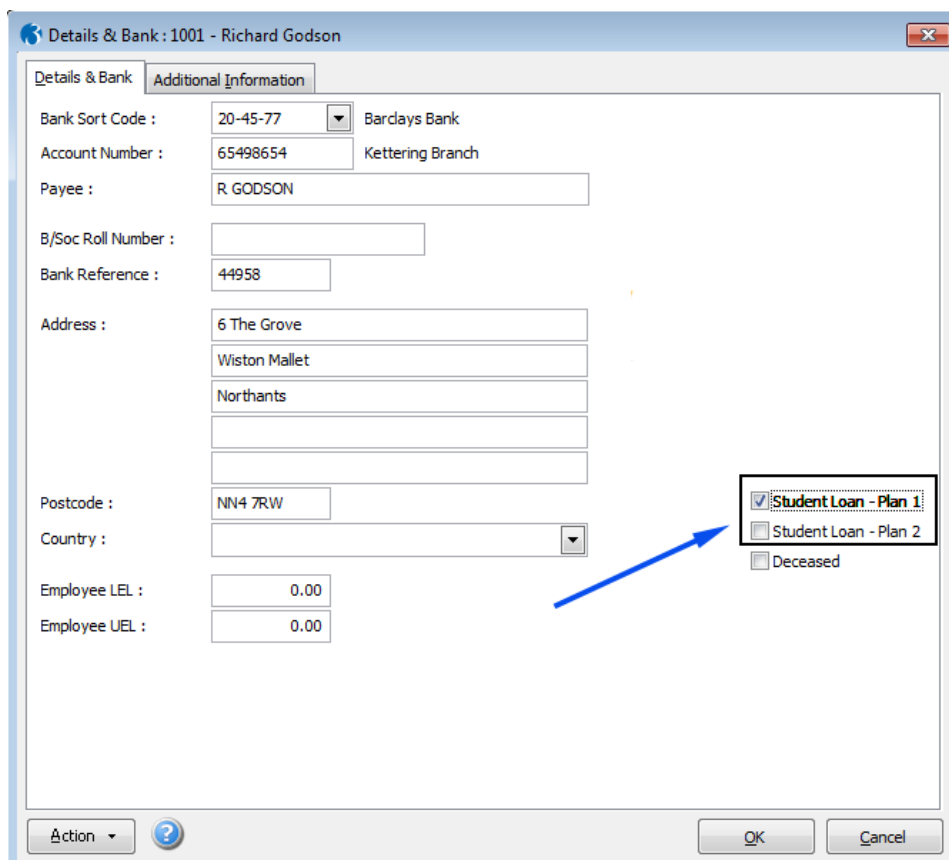

Tip: For full details of student loan repayments, visit www.gov.uk/new-employee/student-loans.

9.1 Software changes

A new option for plan 2 student loans has been added to the Payroll - Processing - Details & Bank form.

Student Loans - 'Plan 1' and 'Plan 2' options

Options for students who are in either plan 1 or plan 2 student loan plans. These settings are used to send new starter information to HMRC in the FPS. Previously there was only one option called 'Student loan', which has been renamed to 'Student Loan - Plan 1'.

10. Payrolling of Benefits in Kind in real time

From 6 April 2016, you will be able to payroll most Benefits in Kind (BiKs) in real time instead of completing a P11D after the end of the tax year. Payrolling is where you include a notional value for employee BiKs as taxable pay into the regular payroll cycle. This is optional and you must register with HMRC by the end of the 2015-16 tax year if you want to do this.

You will be able to payroll all BiKs, except these:

- Living accommodation
- Beneficial loans
- Credit vouchers and tokens.

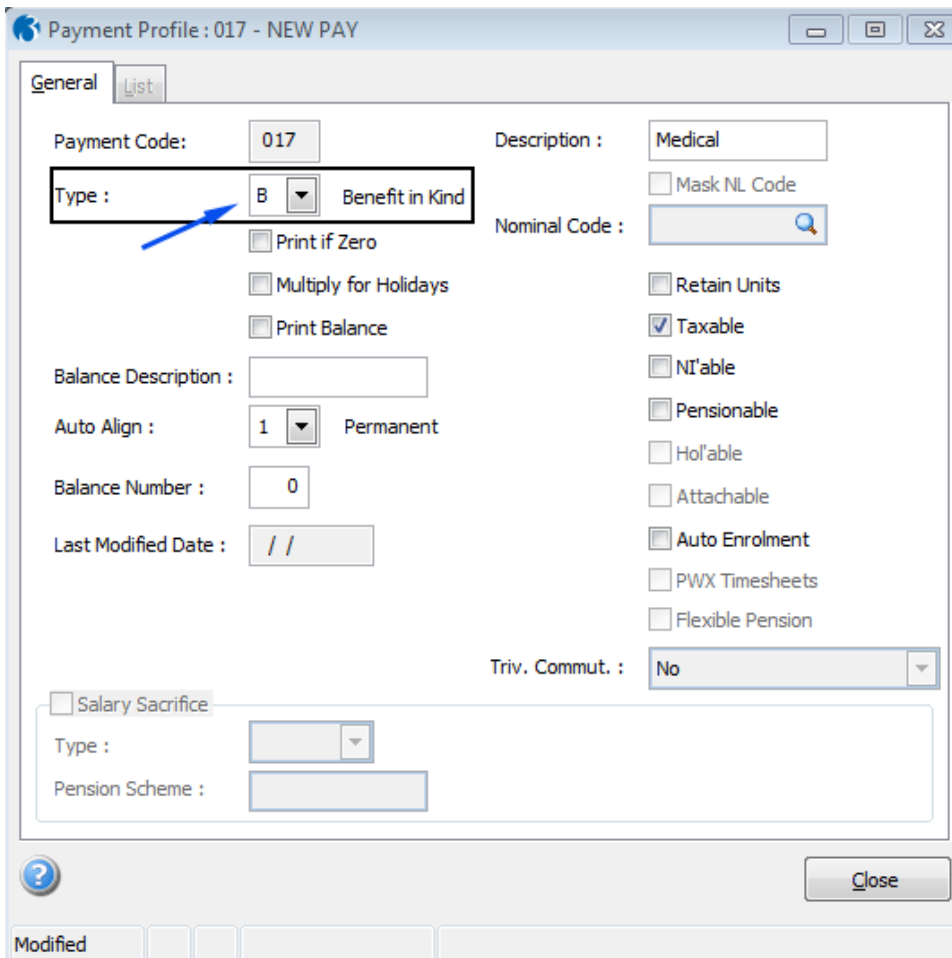

If you prefer you can still continue to report BiKs on the P11D after the end of the tax year as normal.

There is no change to the process for reporting and collecting Class 1A NICs. You will still need to complete a P11D(b) after the end of the tax year, but you will need to ensure that you include the values for both payrolled and non-payrolled BiKs.

Tip: For full details of payrolling of benefits, visit www.gov.uk/guidance/paying-your-employees-expenses-and-benefits-through-your-payroll.

10.1 Software changes

Changes are not needed for this. Payment profiles can already be set up for benefits in kind using the Payroll - Maintenance - Payment Profile form. Payrolling of these new allowable benefits should be dealt with using that feature.

12. Female state pension age

Between April 2016 and November 2018 the female state pension age will increase more quickly to 65.

12.1 Software changes

Opera uses a data table with the state pension ages and dates. The data table has been updated.

The state pension ages and dates in your data are automatically updated after your software has been upgraded.

13. Removal of contracting out of the State Second Pension

From the 2016-17 tax year, a new single-tier pension will replace the basic state pension and the State Second Pension (S2P). This also means that contracting out of the S2P into Contracted Out Salary Related schemes (COSR) will be abolished.

- Both the employer and employee can still pay into COSR schemes on not-contracted-out basis.
- COSR NI category letters D, E, I, K and L will no longer be valid.
- The Upper Accrual Point (UAP) band - for NI category letters D, E, I, K and L - will be removed.

13.1 Software changes

Payroll - Utilities - PAYE/NI/Stat. Payments form

Column headings, field captions and columns have changed because contracting out of the S2P has been abolished.

Payroll - EOY/Special Reports - End of Year Cleardown

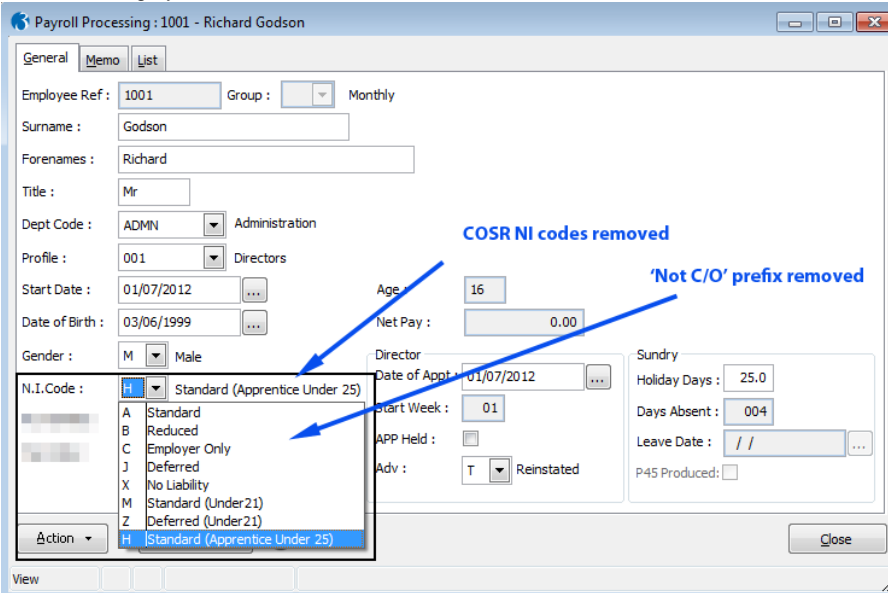

Employees with COSR NI Category letters D, E, I, K and L are changed to the relevant not-contracted-out letters:

- 'D' is replaced with 'A'
- 'E' is replaced with 'B'
- 'I' is replaced with 'M'
- 'K' is replaced with 'M'
- 'L' is replaced with 'A'.

These changes are included on the audit report.

Payroll Processing and reports

COSR NI category letters, SCON boxes and the UAP threshold have been removed in the 2016-17 tax year.

Notes:

1. The box for the Employer's Contracting Out Number (ECON) on the Payroll - Utilities - Set Options form has been retained for historical record.

2. If pension contributions for a COSR scheme were previously deducted before income tax by using the 'Deduct Before Tax' option on a deduction profile (Payroll - Maintenance - Deduction Profile) you should check with the pension provider whether deductions should still be deducted before tax in the 2016-17 tax year for a not-contracted-out scheme.

14. Changes to holding onto NEST contributions

Contributions for NEST pensions can be held onto during an employee's opt-out period.

An employee has about one month after being auto enrolled to decide whether they want to opt out of a pension scheme. You can hold onto someone's contributions so that if they do opt out you can easily return their contributions to them. NEST will not need to send them back to you before they are refunded to the employee.

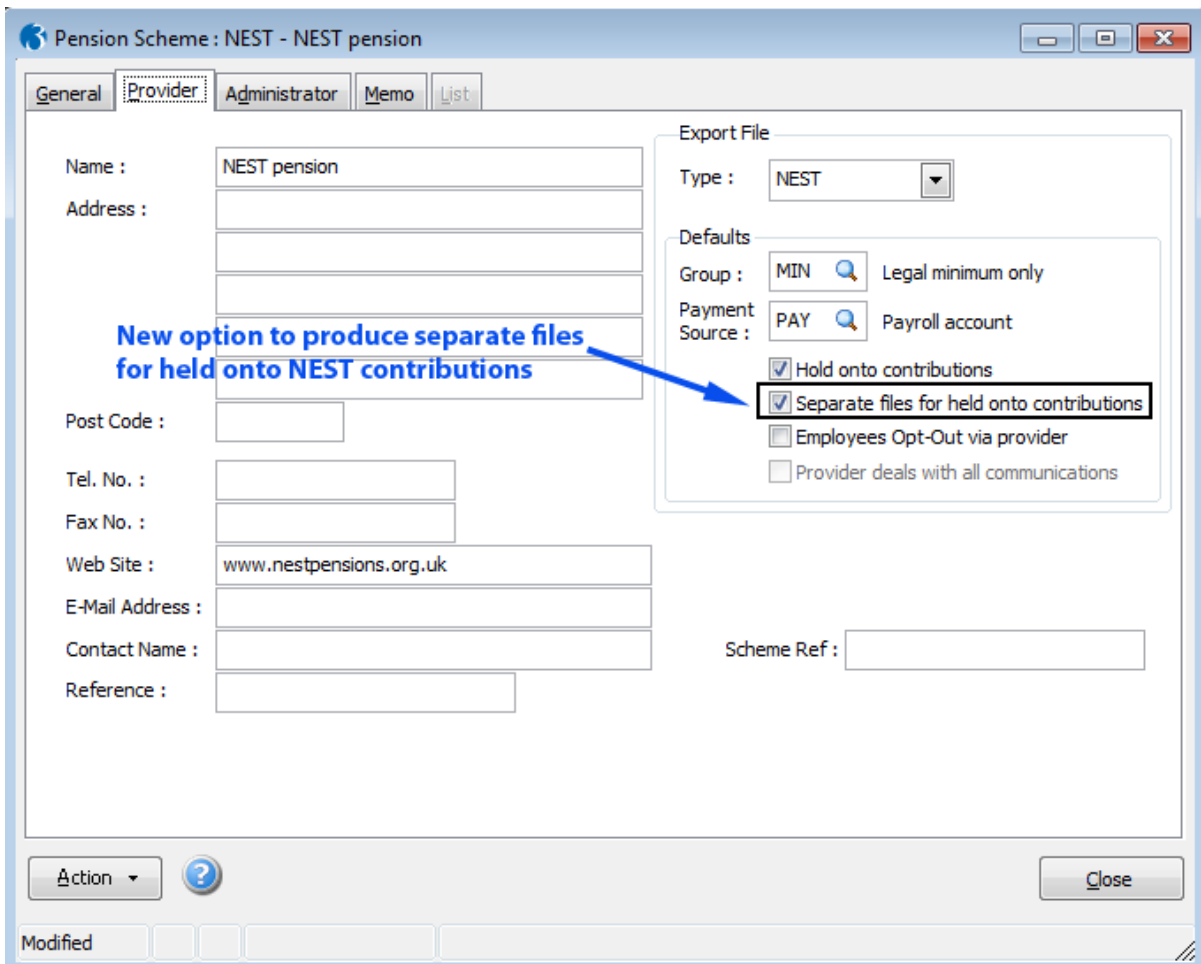

If employees do not opt out then contributions that have been held onto during the opt-out period must be released to NEST.

14.1 Software changes

Pension schemes

A new option called **Separate files for held onto contributions** has been added to the Payroll - Maintenance - Pension Scheme form.

This option controls whether held onto contributions are held and sent to NEST separately for each pay period. If this option is not selected all contributions that are held onto are sent to NEST in a lump sum.

Separate 'held onto' contributions that will be sent to NEST

Contribution file

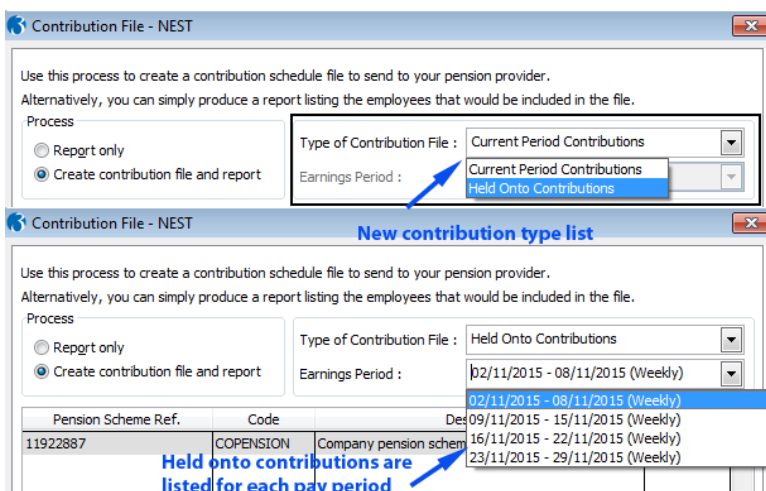

The held onto details are recorded for those employees who are on hold when the current period contribution file is created using the Payroll - Pensions - Contribution File form.

Type of contribution file list

Lists the type of NEST contributions:

- 'Current Period Contributions', or
- 'Held Onto Contributions' - these are the separate held onto contributions recorded for the employee during the opt-out period. When the **Held Onto Contributions** option is selected every pay period's contributions that have been held onto but not released are displayed in a list.

These files are sent to NEST separately.

Held onto contributions are listed for each pay period

Note: After the contribution file has been created the held onto contributions are marked as released.

15. Changes to the NEST contribution file

NEST has introduced two new contribution frequencies - 'Tax Weekly' and 'Tax Monthly'. The full list is now: Weekly, Monthly, 2-Weekly, 4-Weekly, Tax Weekly, Tax Monthly.

Also, the acceptable list of 'exception reasons', which are used to highlight something unusual to NEST in the contributions schedule, has been amended. In particular, 'Left employment' has changed to 'No further contributions payable', and 'Stopped contributions' and 'Duties fulfilled elsewhere' are no longer allowed.

15.1 Software changes

Pension groups

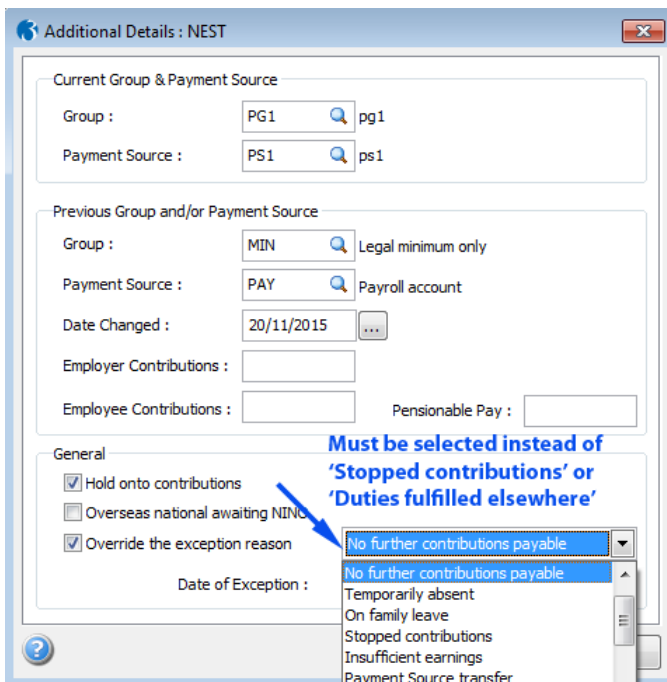

The **Contribution Frequency** list on the Payroll - Maintenance - Pension Groups includes these items:

Weekly, Monthly, 2-Weekly, 4-Weekly, Tax Weekly, Tax Monthly.

Payment 'Exception' reasons

Changes have been made to the allowable 'exception' reasons that are allowed in the NEST contribution file. An exception is used to inform NEST that an expected contribution is not being paid.

In particular, these reasons are not allowed:

- Stopped contributions
- Duties fulfilled elsewhere.

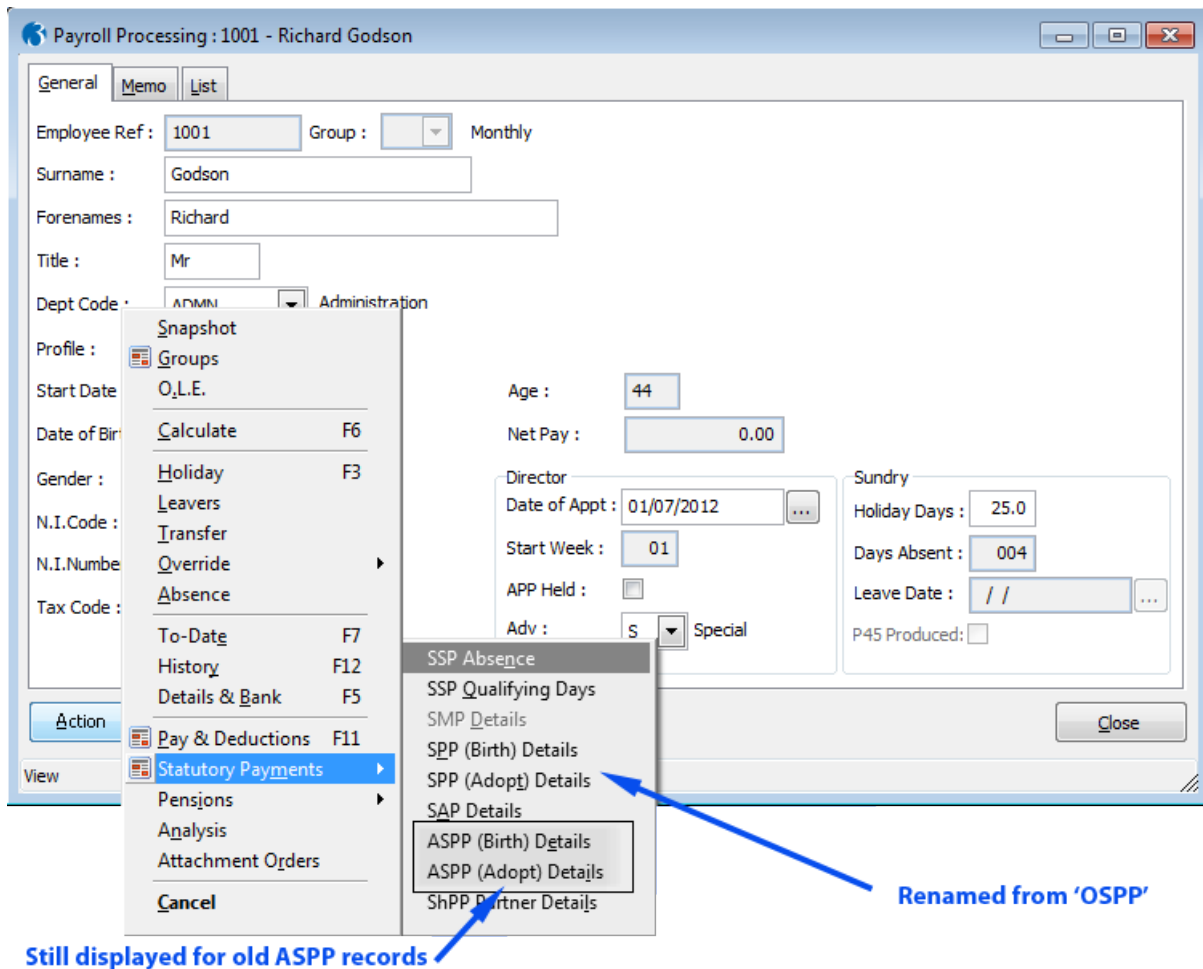

A message is displayed if either of these reasons are selected advising that the 'No further contributions payable' option should be selected instead.

16. Removal of Additional Statutory Paternity Pay

At the start of the 2015-16 tax year Additional Statutory Paternity Pay (ASPP) was replaced by Shared Parental Pay (ShPP). At the same time Ordinary Statutory Paternity Pay (OSPP) was renamed to Statutory Paternity Pay (SPP).

16.1 Software changes

Throughout Payroll, most references to 'OSPP' have been replaced with 'SPP' but some remain for historical reporting. Also, most references to 'ASPP' have been replaced with 'ShPP'.

The screenshot shows the 'Payroll Processing : 1001 - Richard Godson' window. The 'Statutory Payments' menu is expanded, listing various options. A blue arrow points to 'ASPP (Birth) Details' with the text 'Still displayed for old ASPP records'. Another blue arrow points to 'SPP (Birth) Details' with the text 'Renamed from OSPP'.

Note: The Payroll - Processing - Statutory Payments - ASPP (Birth) Details and Payroll - Processing - Statutory Payments - ASPP (Adopt) Details forms are still available so you can view historical details.

17. Attachment orders

17.1 New higher rate Direct Earnings Attachment (DEA)

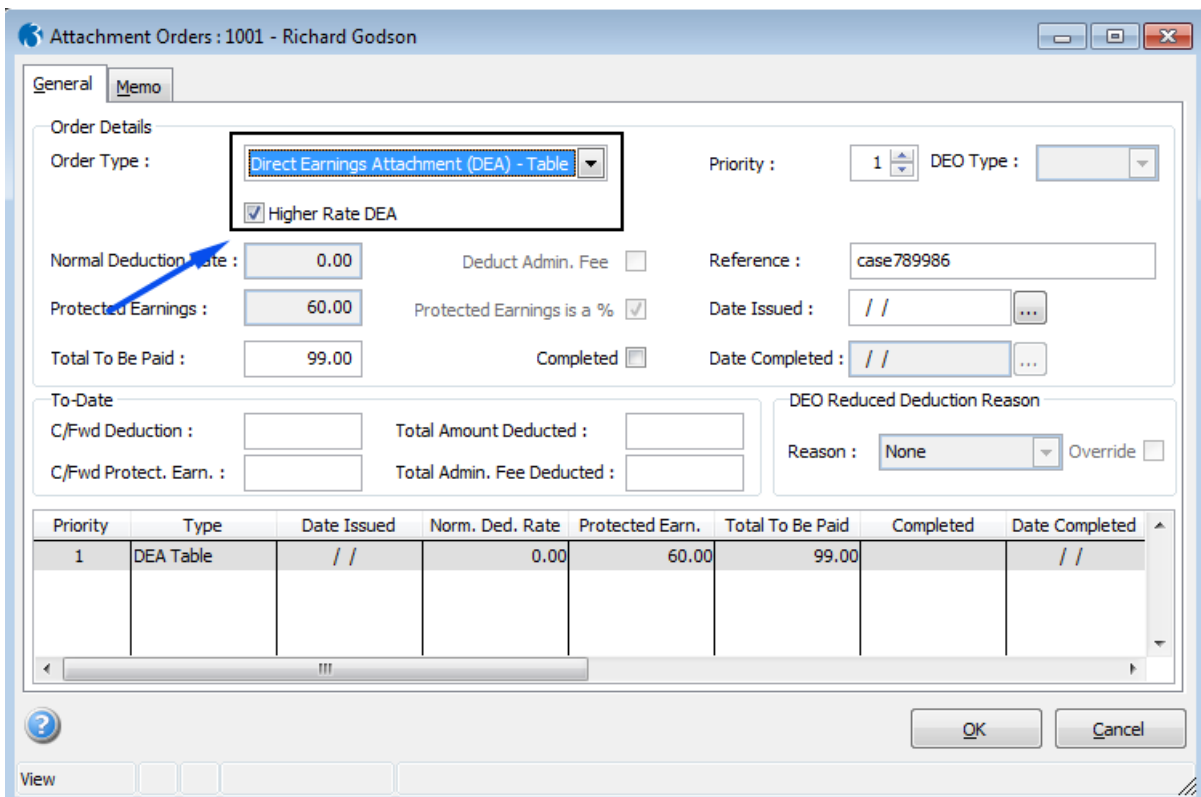

The Department of Works and Pensions (DWP) has introduced a new higher rate Direct Earnings Attachments (DEA) attachment order. This new DEA has been introduced to reclaim benefits from someone who claimed them fraudulently. This new order is effective from 6 April 2016.

Software changes

Higher Rate DEA option

A new option has been added to the Payroll - Processing - Attachment Orders form.

This determines that the DEA is the higher rate type. It is enabled only after the 2015-16 tax year and when the 'Direct Earnings Attachment (DEA) - Table' option is selected.

The screenshot shows the 'Attachment Orders : 1001 - Richard Godson' window. The 'Order Details' section has 'Order Type' set to 'Direct Earnings Attachment (DEA) - Table' and the 'Higher Rate DEA' checkbox checked. Other fields include 'Normal Deduction Rate' (0.00), 'Protected Earnings' (60.00), and 'Total To Be Paid' (99.00). A table at the bottom displays the order details:

Priority	Type	Date Issued	Norm. Ded. Rate	Protected Earn.	Total To Be Paid	Completed	Date Completed
1	DEA Table	//	0.00	60.00	99.00		//

17.2 Scottish court orders

The Scottish Parliament has introduced changes to the rates and bands used for the processing of Scottish court orders, in particular Earnings Arrestments (EA) and Current Maintenance Arrestments (CMA). The changes are effective from 6 April 2016.

Software changes

Opera uses a data table with the rates and bandwidths for attachment orders. The data table has been updated.

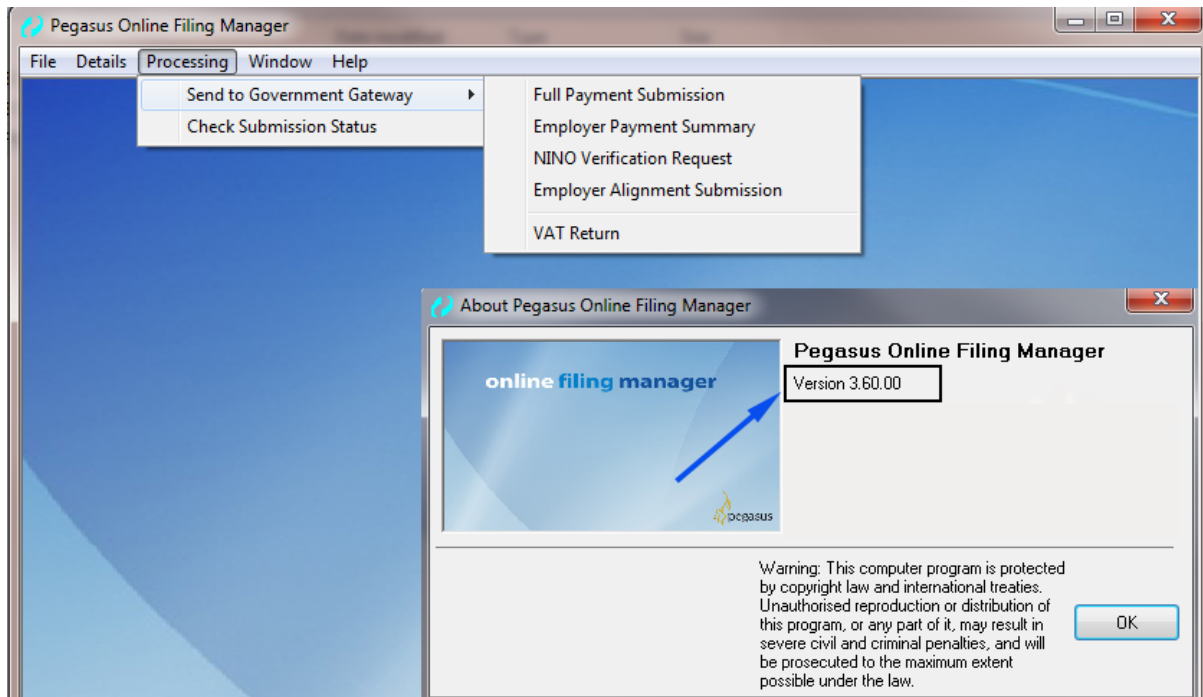

The rates and bandwidths in your data are automatically updated after your software has been upgraded and the System - Utilities - Update Data Structures command has been run for each relevant company.

18. Online Filing Manager (3.60)

Pegasus Online Filing Manager (3.60.00) includes changes for filing the final EPS submissions for the 2015-16 year-end, and filing FPS and EPS submissions in the 2016-17 tax year.

18.1 Software changes

You must upgrade your Pegasus Online Filing Manager software to version 3.60.00.

19. Key payroll dates

Here are some important payroll dates for the next tax year.
