

Mobile Sales

Connecting your sales team on the road with your office

Mobile Sales via Pegasus Web Xchange is a dedicated sales app that will change the way your orders are taken and processed.

If you have a sales team on the road, Pegasus Mobile Sales will be an invaluable tool for them to take sales orders on their mobile devices. The sales person can showcase products to the customer, take the order and send it securely back to the office to be authorised and uploaded into Opera 3 Sales Order Processing.

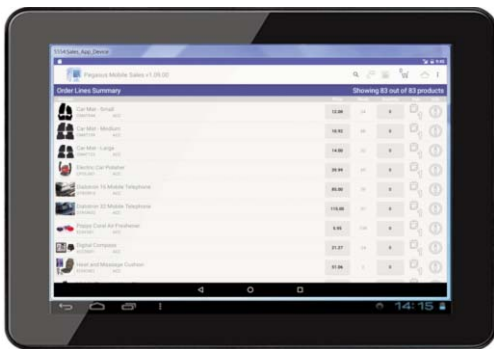

With Pegasus Mobile Sales, the turnaround time between a customer placing an order and that order being processed is reduced significantly. This improves delivery and invoicing times, ultimately enhancing cash flow. Processing orders in this way saves time and money and improves the customer's experience of your company.

Pegasus Mobile Sales is designed to work even if there's no internet connection using cached data. Information on orders placed is stored on the mobile device until a network connection is found.

Features and benefits

- Works on Android tablets*
- Secure communication between the mobile device and Opera 3
- Downloads Opera 3 Stock Control to the mobile device, including stock levels and pricing
- Sales orders from the mobile device are uploaded to Opera 3, where the sales office can approve them and import them into Sales Order Processing
- If an order is rejected, the sales person is notified and given the reason
- The Due Date for delivery can be specified at both Sales Order and Sales Order Lines level
- Uses product and special pricing, invoice and settlement discounts and customer price lists
- Showcase products to customers
- The customer's signature can be captured on orders and included in the order confirmation email
- The sales person can view the status of the order, from upload to Opera 3 through to Delivered and Invoiced
- Orders can be taken even if there's no network service, and can be uploaded once network service is restored
- Ideal solution for companies with sales people on the road
- Saves a company both time and money

Sales order lines

Pegasus Mobile Sales is designed to improve the way your sales team interacts with customers. Account information is provided so that the sales person can see the customer's credit limit and current balance, a list of their outstanding invoices and due dates, and previous orders placed. The sales person therefore knows what's been ordered, delivered and invoiced to that customer, so they have a history of the customer's purchasing patterns. And it's possible to define the length of time sales orders are retained on the mobile device.

In addition, Stock Enquiry allows the sales person to see what is in stock and the selling price. All of which is exactly what the sales team needs to manage customer accounts, take sales orders and send them to the office for processing.

* Will be available on iPad in 2017.

Pegasus Web Xchange

Connect with your Opera 3 data remotely

Pegasus Web Xchange is a secure and easy way to access your Opera 3 data on the go: any time, anywhere.

It will change the way you work and run your business.

Pegasus Web Xchange provides a set of services that are used to securely access and view Opera 3 data via a mobile app or web browser. Users can log in from a range of mobile devices* through Pegasus apps or supported web browsers such as Internet Explorer, Google Chrome, Mozilla Firefox and Safari for iOS.

* Speak to your Pegasus Partner

- Connect with Opera 3 data wherever you are, on devices such as PCs and tablets
- Access your data securely
- 24/7 access
- Improve efficiency
- Empower employees
- Save time

Available services: Payroll Self-Service, Timesheets and Mobile Sales.

"Our recent deployment of Pegasus Web Xchange is already helping us to remove lots of manual processes and administration from our payroll function"

Jakki Hill, Payroll Manager
Houlder
